Determine level of planning

Review pre-developed mateial

e.g. approved controls, risk assessment, TMPs

Select pre-approved plan or TMP

Example questions to inform additional site specific requirements

- Are there components of available pre-developed plans suitable for use?
- What are the differences in environment and activity?
- Do the differences affect the risk assessment?
- Are there new or different stakeholders that we need to consider?
- Are there additional controls that could address changes in risks?

Detailed risk assessment

Identify risks, analyse and provide controls

Specialist assessments

TIA's, traffic modelling, temporary works (as necessary)

Develop TTM controls

For example, TMP

Ashburton DISTRICT COUNCIL
