

**APPENDIX 7**

**SERVICING AGREEMENT BETWEEN THE APPLICANT  
AND THE ASHBURTON AQUATIC PARK TRUST**

---

12 October 2006

Mr John Skevington  
393 Stranges Road  
R D 4  
ASHBURTON

Client: Ashburton Aquatic Park Charitable Trust

Subject: Development of Adjoining Land

Dear John

Further to your previous correspondence and discussions with Graeme Dick we confirm on behalf of the Trustees, that the Ashburton Aquatic Park Charitable Trust has no objection to the development of your adjoining land as discussed over the years. We also acknowledge that we have an obligation to provide \$25,000 in funding towards your costs of obtaining resource consents.

With the development of individual property ownership on the lake site, we are however unable to speak for, or commit, any land owners living in the area who may be affected.

We therefore think it important that you, in your planning, consider any impact on adjoining residents.

With regard to the sewage and water services provided through the existing subdivision, we confirm on behalf of the Trust that in return of the supplying of the clay for the lake lining you would have the benefit of being able to connect to the existing system at it's present location without a charge being made by the Trust. It should be noted however that if there was an upgrade of the system required by any authority or capacity issue, any costs of that upgrade, including any legal or consent costs, would be related to your new development and would of course be at your expense.

We trust this provides you with the necessary confidence to proceed to the next stage of your development.

Yours faithfully  
Brophy Knight Limited
