Subject: Proposed subdivision at Lot 3001 DP 311174, Huntingdon Avenue, Ashburton

Hello Ken,

could you please confirm in writing that Electricity Ashburton is able to supply electrical services to above subdivision. I have attached a scheme plan of the proposed subdivision (approx. 35 lots) and a location plan for your convenience.

Regards,
Gabi

Re: Proposed Subdivision: WIL: Huntingdon Ave, Willowby - 35 lots

(Subdivision Location: Huntingdon Ave Willowby)

Dear Sir / Madam

Thank you for letter and scheme plan for the above subdivision.

There is currently cable with spare capacity in the vicinity of the subdivision that can be extended to service this development.

If the developer wishes to reticulate the subdivision and install connection pillars on the boundaries prior to selling sections, then they will need to commit to a Telecom Subdivision Reticulation Contract and pay the required subdivision fees. The charge for Telecom to provide services to this subdivision of 35 lots/units is \$70,875.00 (G.S.T inclusive). This charge comprises a contribution toward Telecom NZ Limited's total costs of extending its network and infrastructure to the lots in the draft plan, including the cost of design, supply of telecommunication specific materials and supervision of installation. This quote is valid for 3 months from the date of this letter.

The above price assumes that the Developer, or his nominated contractor, will supply and reinstate trenches and install Telecom plant within the subdivided area and along the frontage of the subdivision if required.

Please let me know in due course if a Reticulation Contract is required.

Yours faithfully

Nathan Kroening
