

## **STOCKWATER – RACE ALTERATIONS**

Stockwater customers are reminded that any alteration to the Council stockwater network must be approved by Council in writing, prior to commencement of works. Customers wanting to make alterations to the network must apply to Council on the appropriate form available from [ADC Forms](#) or by contacting the Council office.

Alterations include-:

- Closure or realignment of existing races;
- Construction of new races or culverts;
- Construction of new ponds, or pipe services off the race system.

Applications for alterations that affect a single property are generally processed within 10 working days. Where consultation with other property owners is required, processing may take longer. Note-: There are no fees for the application process.

If you would like a copy of the application forms to be sent out, or wish to make an appointment with a water ranger to discuss the proposal please contact Council Customer Services on 307 7700.
