

## STOCKWATER RACE NETWORK WEED SPRAYING

Council wishes to remind farmers and spraying contractors that use water from a stockwater race for spraying or sheep dipping activities, this is not permitted under Council Stockwater Bylaws. Please also note the following:-

- No residue from washdown near or beside a stockwater race is permitted to enter the stockwater race;
- only a "Glyphosate" herbicide should be used when spraying banks of stockwater races for vegetation control;
- Spraying main races and road crossings is carried out by Council contractors only, between the months of October – April

Members of the public that witness the person filling of spray equipment from a stockwater race are urged to contact Council immediately.

For further enquiries regarding spraying around stockwater races, please contact the Council offices on 307 7700 at any time.
