<b>Draft Waste Management &amp; Minimisation Plan</b>	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	Yes
Why?:	We do NOT put any food waste in the waste red bin. All our food waste is composted or put through our bokashi system, or put in our worm farm. However I would still support the introduction of a collection that stops food waste and any organic material going to the land fill - because I care about the environment and are concerned about climate change.
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	
Why?:	
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	
Why?:	
Do you have any other comments?:	I have only commented on the proposed prevention of food waste going to the land fill. I am interested in what council will do with the food waste if they collect it from households?
