Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	No
Why?:	We use a garbage disposal unit for all of our food waste if this was not an, option I would be using our food waste for compost do not need to be charged more in our rates for services that are not required
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	Yes
Why?:	Yes there is a is an issue with what people are putting in their rubbish for collection but there are other options out there if people really want it. Because people are lazy I fell that the 50.00 option would be an easy option for most people in this town to take
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	No
