Do you wish to speak in support of your submission at the hearing?:	No
If yes, do you wish to support your submission in person or virtually?:	
Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	No
Why?:	A large green bin should have been introduced initially, just as they have in Timaru, but it is not too late to introduce one. It is not just food waste, but more importantly garden waste that should be collected and composted locally and not sent to Kate Valley at a huge cost. The savings would offset any increase in collection costs.
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	No
Why?:	As above.
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	No
Why?:	Garden waste is more important to be collected in addition to food waste.
Do you have any other comments?:
