DO YOU AGREE WITH OUR PREFERRED OPTION OR DO YOU SUPPORT ANOTHER OPTION?

1

Drinking water meters:

Spread over 3 years – our preferred option

All in 1 year

Don't install meters

Let us know why:

I don't agree with meters being installed as there life span is only around 5-7 years the cost of installing the metres for out weigh the price. That you could employ someone to check by other means for LEAKS.

Plus I think the rent needs to go up on the 100 retirement Accommodations that we have 6 of in Methven as it is way to cheap

All the new housing that is being built these are contributing to rates, so it should help I know it is harder on infrastructure but I thought the company that are doing subdivision pay this in Methven.

Like someone said in the meeting are we getting different quotes for water Tanks and not just going with one company.

2 Elderly Persons Housing:

☐ Self-sustaining in 2 years - our preferred option

☐ Self-sustaining in 7 years

☐ Status quo - inflationary rent increases + general rate

Let us know why:

Put up rent on these Please as it is so cheap. Nobody get to pay \$12367 for rent for a couple this is so wrong it needs to be at least \$140 to \$150 per unit. as on a pension I'm sure they get at least \$400 per couple a week.

What do you think about our plans for our other projects and activities? Any other comments?

I don't see why we should be spending more money on the DOG park, not necessary. I walk past there often and have not seen a dog in there yet. \$15,821. The Waste and recycling drop off transfer station is fine \$1,256-238 is unnecessary.

I have had a house for 22 years in Methven and I boil my water, and have ever since I moved here.

Mt Hutt Memorial Hall: We have just put in a new projector and kitchen is fine just need a new bridge. The previous projector lasted 11 years. Would you like to be added to our database to provide feedback on future consultations?

☐ Yes

☐ No
