Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	Yes
Why?:	I support the idea to help the environment by reduction of organic/food waste going to the land fill. However, we would not have anything to put in the bin as all our food waste is composted, put in our worm farm or our bokashi system. What will happen to all the food waste you would collect?
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	
Why?:	
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:

Do you have any other comments?:	I only wish to comment on the proposal to introduce kerbside food waste collection.
