

Your details	
First Name:	Bruce
Last Name:	Kelly
Do you wish to speak in support of your submission at the hearing?:	No
If yes, do you wish to support your submission in person or virtually?:	
Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	Yes
Why?:	Personally we probably wouldn't use it as all our food scraps go into a worm farm but we are probably a minority so sending this waste to landfill is not right.
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	Yes
Why?:	
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	Yes
Why?:	
Do you have any other comments?:	Is there some way fees could be reduced for dumping rubbish so that we can encourage people to use the facility and not dump it in the riverbeds. Maybe introduce large fines if caught dumping illegally. Look at soft plastic recycling? Recently we built a new house and I was appalled at the recyclable waste in the skip.
