

<b>Your details</b>	
First Name:	Rob
Last Name:	Millar
Do you wish to speak in support of your submission at the hearing?:	No
If yes, do you wish to support your submission in person or virtually?:	
<b>Draft Waste Management &amp; Minimisation Plan</b>	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	No
Why?:	More information needed - what is classified as food waste? Does that include lawn clippings etc? We currently don't waste that much food ourselves each week so it seems excessive to have a bin for it. But we would utilise a compostable service if it included lawn clippings, leaves, fruit/vege scraps. Current pricing to dump a bag of lawn clippings/green waste on the outskirts of Methven is ridiculous and hard to access when required.
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	Yes
Why?:	Somewhat as above but in principle I'd say there is waste going out that doesn't necessarily go to land fill. We also dump a lot of things like bottle lids/caps and some materials which supermarkets/shops sell as recyclable but aren't actually allowed to be recycled in ADC recycling collections.
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	No
Why?:	Again as outlined above but a bit more information and further confirmation of pricing/regularity of green waste collection would be useful.
Do you have any other comments?:
