

Methven Community Board AGENDA

Notice of Meeting:

A meeting of the Methven Community Board will be held on:

Date: Monday 13 June 2022
Time: 10.30am
Venue: Board Room, Mt Hutt Memorial Hall
160 Main Street, Methven

Membership

Chairperson	Dan McLaughlin
Deputy Chairperson	Kelvin Holmes
Members	Sonia McAlpine Ron Smith Richie Owen
Council appointees	Cr Rodger Letham Cr Liz McMillan

08 June 2022

4. Minutes –2 May 2021

Present

Kelvin Holmes (Chair); Cr Liz McMillan, Cr Rodger Letham, Ron Smith and Sonya McAlpine.

In attendance

Mayor Neil Brown; Steve Fabish (GM Community Services), Ian Soper (Open Spaces Manager) and Clare Harden (Community Liaison Officer)

1 Apologies

Dan McLaughlin and Richie Owen

McAlpine /Smith

Carried

2 Extraordinary Business

The Chair sought agreement from the Board to discuss and an update the Action Schedule.

3 Declarations of Interest

Nil.

4 Confirmation of Minutes

That the minutes of the Methven Community Board meeting held on 14 March 2022, be taken as read and confirmed. (

McMillan/Smith

Carried

Activity Reports

That the reports be received.

McMillan/Holmes

Carried

5 Community Services

Open Spaces

- Liz had a note from a member of the public about the roses at the Methven Memorial arch needing some attention.
- Liz received an email about the Service graves at the Methven Cemetery needing a mow before ANZAC day. Open Spaces did mow a week before ANZAC day, but higher grass growth lead to it needing to be done again.
- Work is continuing at the cemetery and once grassing has been finished it will be handed back to the Lions for track maintenance.
- A new fence is being added at the cemetery (post & rail). Open Spaces are working with the Lions on this project.

6 Strategy & Compliance

Strategy & Policy

- Update on the hawkers (Trading in Public Places) Bylaw which will soon be coming out for consultation.

- Community Board to add that hawkers may need to work around local events. The Board will add this to their submission.
- Kelvin has a draft Annual Plan submission that he will send to the Board.

7 Infrastructure Services

Roading

- There will be a group formed to progress the footpath from Racecourse Road to Ōpuke hot pools and the Trotting Club. Mark Chamberlain will lead this working group.
- The government's Speed Limit Rule change has been signed off by the Minister. The updates will now need to be gazetted by government. Liz feels this will still take some time.

Water Services

Liz gave a verbal report on the below that is a late update and not added to the agenda.

- **Reservoir construction**
The concrete foundations have been constructed and the contractor is installing the in-ground pipework at present. This includes modifications and blank connections to allow for the new plant to be connected more easily when it is constructed, without interfering with the operation of the current plant. The reservoir panels are expected to arrive in May and then construction of the reservoirs themselves will begin.
Upon completion of the new reservoirs, the old concrete reservoir will be inspected internally and structurally, to help us decide on the best way to rehabilitate it and maximise its life and the storage available to Methven.
- **Water metering trial**
The contractor is out in Methven surveying the manifolds and toby boxes to confirm which need to be upgraded and the scope of work required. In May the work to replace older boxes will begin, after which meters can be installed.
The meters themselves are still in transit but expected to arrive soon. We have a reserve of meters on hand to begin the installation process.
- **Membrane treatment plant**
The contract for the treatment equipment has been awarded and initial discussions have been held with the successful contractor.
Beca consultants are working on finalising the process designs which will inform the building sizes and layouts. These will then be reviewed at a series of workshops involving officers and operational staff to identify any potential issues before we proceed to detailed structural and civil design.
Test pits have been dug and infiltration testing carried out to estimate the size of the soakage basins required for disposal of backwash water. This sets the amount of land needed for the final plant.
- **Exploratory bore drilling**
Landowner approval is still being sought. There are implications to the landowner on their farming operation if the bore was proven successful and able to be used as a drinking water supply source. The landowner is currently considering independent advice on the matter.

8 Business Support & Governance

Discretionary grant requests

That the Methven Community Board approves funding of \$5,000 from the Board's discretionary fund for the Methven Rugby Football Club lighting project.

Smith/Letham

Carried

That the Methven Community Board approves funding of \$3,000 from the Board's discretionary fund for the Methven Cricket Club's new net.

Letham/McAlpine

Carried

Extraordinary Business

- **Action schedule**

The Board updated the action schedule to take out any actions that the Board are happy have been completed.

The meeting concluded at 11.43am.

Next meeting: Monday 13 June 2022

Dated 13 June 2022

Chairman

Activity Reports

5. Community Services

5.1 Open Spaces

- **Reserves**

General autumn maintenance continues around the Methven Township. Thankfully we are now seeing growth subside as ground temperatures decline. Annual bedding displays have been replanted and the typical aftercare is now under way. Spraying duties are now catching up also with staff now on top of what has been rampant growth.

Street trees in South Belt have been removed and replanting will occur when the replacement street trees, Crataegus 'Pauls Scarlet' are available. The stumps will be ground out over the coming months.

Some new specimen trees will be planted in Methven Dog Park over winter. These will ultimately provide shade to park users.

Council officers held a positive meeting with Methven Lions in relation to their development of the Thyme Stream walkway area. Ultimately the community will benefit from this ongoing work.

- **Methven cemetery**

Staff are very happy to report that the ground preparation and driveway realignment tasks have concluded with a favourable outcome. Newly sown grass has germinated and once there is sufficient growth, the new lawn areas will be rolled and mown. The Lions plan to have the walking track reinstated as soon as conditions allow. Once complete, Open Spaces will plant ten Sequoia gigantea (Wellingtonia) trees along the track. Additionally, there will be native species planted on the eastern bund of root-raked materials. This bund will rot down and settle over time.

The donated seat will be refurbished and refitted in an appropriate location in the coming months along with additional seating at the Cemetery.

The new front fence is looking wonderful. Thanks to the Methven Lions for their working bees, fence construction and staining and others in the community that have donated time and materials to tidy up the original wrought iron entrance and gates. This refreshed look presents the Cemetery in good light for the community and reinstates the entranceway to where it originally was.

- **Public toilets**

These are functioning well with no recent issues.

6. Strategy & Compliance

6.1 Building Services

Month	2021 Consents Issued	2021 Consents Issued YTD	2021 Value of Work	2021 Value of Work YTD

Month	2022 Consents Issued	2022 Consents Issued YTD	2022 Value of Work	2022 Value of Work YTD
Jan	8 (3)	8 (3)	\$4,134,800 (\$344,000)	\$4,134,800 (\$344,000)
Feb	4 (3)	12 (6)	\$2,466,550 (\$388,500)	\$6,601,350 (\$732,500)
Mar	16 (4)	28 (10)	\$6,586,027 (\$394,650)	\$13,187,377 (\$1,127,150)
Apr	6 (6)	34 (16)	\$1,643,648 (\$313,000)	\$14,831,025 (\$1,440,150)

Note: figures in brackets are for the corresponding month the previous year.

Please be aware that there are building consents that have been issued that are not recorded in the tables above because the properties are outside the Methven Township boundary. For example, the Ōpuke Hot Pools consent was issued in May 2020 for a value of \$6,500,000 and Thyme Stream subdivision has had \$3,214,000 of consents issued to the end of 2021. Thyme Stream this year has been \$580,000.

7. Infrastructure Services

7.1 Roading

A meeting is still be arranged for the footpath on SH77 to the Ōpuke Thermal Pools. A Council workshop on new footpaths will provide some direction on possible funding for this project. The proposed footpath on Mackie St will also be part of the workshop discussion.

Cleaning of the pavers is programmed to be carried out in June.

Two of the seats in the town centre were cleaned using waterblasting with a less than desirable result (rough timber surface). Cleaning of the other seats is planned to be done with spraying a product that cleans the seats over time. Longer time to see the results but no damage to the seats.

7.2 Water Services

- **Reservoir construction**

The second pipe cut-in on the raw water intake lines was completed on 27 May. Two more cut-ins are expected to be carried out in June for installing new flow meters and connecting the new reservoirs to the treated water pipelines.

These recent cut-ins and some additional pipework is part of future proofing initiatives that will allow easy connection between the new membrane treatment plant and the reservoir once it is completed.

The reservoir panels have been delivered to site. The contractor has commenced assembling the reservoir roof for Tank No 1. Assembly of the panel walls will commence on 30 May.

A site visit will be organised for members of the Methven Community Board and Council in June when the contractor has starting assembling the rings.

- **Water metering trial**

The contractor has installed more than 100 meters as of 30th May. Installation of meters may continue until end of July.

The installation of manifolds has also started for properties with old connections. As of the last survey in April, there are more 400 properties that may require new manifolds. New meters will be supplied to these properties after the manifolds are installed. Installation of manifolds and water meters will continue until August.

- **Membrane treatment plant**

The contract for the supply of the membrane treatment equipment has been awarded to Masons Engineers (NZ) Ltd.

The proposed membrane water plant will be based on the standard design of a DuPont Memcor CPII ultrafiltration membrane technology. Both Masons and Memcor have extensive experience in membrane water plant design and implementation.

Beca consultants are now working with Masons to finalise the process designs and the building sizes and layouts. Detailed structural and civil design is expected to be completed by August and construction to be tendered early September 2022.

It is anticipated that the building to house the membrane including its ancillary components will be completed June 2023.

- **Exploratory Bore Drilling**

Acting upon external advice, the landowner has decided against allowing access to their property for bore drilling, citing concerns regarding the potential implications arising from having a community water source on their property. No further work is being done in regard to exploratory bore drilling.

8. Business Support & Governance

8.1 Remuneration

The Remuneration Authority has released the Local Government Members (2022/23) Determination which sets out the Methven Community Board Members' salaries for the next year (effective from 1 July 2022 until 30 June 2023).

Position	2022/23	2021/22
Chairman	\$5,554	\$5,477
Member	\$2,777	\$2,738

8.2 Customer Request Management

The CRM report for April/May 22 is appended.

Appendix 1

8.3 Finance

The draft financial report to 31 April 2022 is appended.

Appendix 2

8.4 Funding Requests

The June 2022 funding request report is appended.

Appendix 3

Methven Ecological Garden Group	N/A	Y	Y	Y	N	N	Watering system for an Educational Laboratory/Hub and develop an eco-sourced plant nursery within the school grounds that relate directly to the ecological values of the Methven area – Mt Hutt and braided river areas. These plantings mirror a natural biodiversity setting and provide habitat for lizards, butterflies, native birds and bugs.	The best way for children and young people to learn about nature and the environment is to be out in the environment. This project will provide hands-on learning outdoor experiences in a safe environment.	The students of Mount Hutt College, Methven Primary School and Our Lady of the Snows School, Methven	500+	The Educational Laboratory will be a base for the school syllabus activities such as science, agriculture, employment pathways (SSEP) and Opuke(student lead school based) Projects.	A biannual report of the use of the garden will be presented to the Mount Hutt College Board outlining the growth of the area and achievement of project goals e.g. student use, plant growth, completed work	Y	N/A	Growing of 70 eco-sourced seedlings The clearing of the area of 40 truckloads of rubbish by the Methven Lions	\$1,480	\$2,280	Without the watering system we will have to leave the start of this project for another year.	N	Discrete	
Methven Library and Museum Management committee	N/A	Y	Y	Y	Y	N	We wish to recognize their effort and contribution by installing a Donors' recognition panel within the building, and acknowledge the historic importance of the site with a commemorative plaque.	We wish to publicly and permanently acknowledge the individuals, businesses and organisations from whom we received grants and donations. Without the support and generosity given Methven would not have the asset we have today.	Valuable information about the history of early Methven will be easily accessible to anyone who lives in or visits Methven.	1000+	A thank you to the people who made things happen, and an indication of the historical importance of the site. We will have fulfilled the obligation we have to publicly acknowledge the history and the funders.	The building will continue to be in regular use, with community involvement and visitors and newcomers will have a landmark place to visit for reading material, companionship, and a grounding in the history of the area	Y	N/A	Volunteers from the committee will assist with the installation of the items.	\$6,460	\$6,460	We will continue to fundraise for this, but financial assistance from the Community Board to recognise the contributions from towns people from the past and the present would really be appreciated.
