Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	Yes
Why?:	Reducing food waste going to landfill is better for our environment over all.
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	Yes
Why?:	
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	Yes
Why?:	I think the kerbside food waste collection is great for people who do not otherwise compost/manage their own food waste. However, our household manages this ourselves and does not send food waste to landfill so I would like this to be a user pays system so we and others who do not require it can opt out.
