Do you wish to speak in support of your submission at the hearing?:	No
If yes, do you wish to support your submission in person or virtually?:	
Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	Yes
Why?:	Instead of being sent to the landfill, food waste can be converted to compost that is not only useful but also safe to the environment. In addition, it will reduce the volume of waste that is sent to the landfill which will have proportional reduction the amount of levy that we pay for its disposal. Its a win-win solution. Who would not want it?
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	Yes
Why?:	We have to manage our waste responsibly. Its about time we work together in addressing the negative impacts resulting from inappropriate management of waste.
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	Yes
Why?:	Its a good start to towards slowly understanding and addressing issues on solid waste management
Do you have any other comments?:
