Your feedback:	<p>Draft Use of Footpaths for Alfresco Dining Policy This is a very simple submission as a self confessed coffee drinker and regular patron of Cafe 131 in Methven. There is nothing more enjoyable than sitting outside on a sunny day enjoying the world going past. There are currently tables and seats against the building which works well. Some twenty years ago there was a central Methven footpath redevelopment and the footpath was widened out past the verandah posts of the Cafe and creating another space for alfresco dining. My submission is that there should be a provision for alfresco dining away from the building and the erection of suitable wind/safety barriers as is similar to some in Ashburton. I do not wish to appear before any hearing and realise that this is up to the cafe business owner and the landlord but there should be the opportunity to use this space. It works.</p>
