

Submitter name  
Organisation (if submitting on behalf)

Sarah Crispin

Do you wish to speak in support of your submission at the hearing?

No

I understand that all submissions are public documents and will be made available on Council's website with the names of submitters included

Yes

### ASHBUROTN DISTRICT PARKING STRATEGY

Do you agree with the draft objectives for the Ashburton District Parking Strategy?

Which ones do you support and why?

A, but not point 5, you already deter people from parking into town bc of fear of getting a ticket. Encourage people to park in town, and visit the local shops. I do not park in town bc the meter lady is on a warpath. I only park in free or unmonitored spots now. Agree with B, town centre revitalisation -it will look amazing

Which ones don't you support and why?

C. No need to prioritise for the minority who drive ev's, we are a rural community every second person probably drives a ute or truck and that's not going to change anytime soon. D and E do not agree , again make it easy for shoppers to drive in an out with plenty of parking - otherwise we'll buy online or go elsewhere!

Do you support the draft action plan?

Is there anything else we need to think about for parking in the district?

Make is easy for consumers to shop in their local town, remove paid parking and the meter ladies. The business owns in two. Have had it rough the last few years, support them. Make parking free in all the centre streets

If you own, or are considering purchasing an electric vehicle in the future, do you think more charging stations should be provided in more public locations than currently?

Yes - Yeah you probably need another one, a good place would be in shopping areas like smith and church / postie plus Carl park and the new countdown complex

*If you own, or are considering purchasing an E-bike in the future, do you think parking facilities should be provided in public locations?* No - Maybe one beside the car charging station but don't most people put them on charge when they get home

*Do you support the addition of drivers over 80 years to the Mobility Parking Policy?* Yes

*Any other comments on the Draft Ashburton District Parking Strategy?* Make parking plentiful and FREE in the centre of town.

### **ASHBURTON TOWN CENTRE PARKING MANAGEMENT PLAN**

*Do you support the draft action plan?*

*Which ones do you support and why?* Yes to the new car parking area for library and civic centre would be great!

*Which ones don't you support and why?* No to giving priority to ADC car pooling, if you are doing that for ADC employees then why not just do it for everyone, make it open for people apply for a 'carpooling pass'

*Is there anything else we need to think about for parking in the Ashburton town centre?* Don't give tickets to people if they are touching the white line. Some car parks are smaller than others. Again it's all about encouraging people to park in town - not discourage

*Do you know of any specific parking issues in the other towns across our district? Your feedback will help us for future parking management plans.* As above

*Do you support the development of a new public car park in the West Street rail reserve north of Havelock Street?* Yes - Great idea!!!

*Do you think specific parking spaces reserved for vehicles where people have car pooled together is a good idea to encourage this form of travel?* Yes but only if it's open to EVERYONE

*Do you have suggestions on where parking time restrictions need reviewing?* Yes - Make centre town FREE

*If you own, or are considering purchasing an electric vehicle, do you think more charging should be provided in public locations than just the current West Street car park?* No - As per suggestions at shopping centres

*If you own, or are considering purchasing an E-bike, do you think charging facilities should be provided in public locations in the Ashburton town centre?*

No - As per previous answer

*Any other comments?*
