Last Name:	Watson
Do you wish to speak in support of your submission at the hearing?:	No
If yes, do you wish to support your submission in person or virtually?:	
Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	No
Why?:	Purely for our household we have no need for such a service; what little food waste we have goes through a 'gobbler' and into the waste water. We would not be keen on food waste [especially meats] sitting around the house for a week between collections getting smelly. However we have no objection to it being made available to other households on an opt in user pays basis. Could costs be reduced by having fortnightly collections [as with glass and othe 'yellow' recycling?
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	Yes
Why?:	Generally well presented and logical; but will not be for everyone.
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	No
Why?:	Would support only if on an opt-in and user pays basis. Charge only those who opt to have a suitable bin.
Do you have any other comments?:	No
