Do you support the disposal of Grove Street Park? : No, I oppose the disposal of Grove Street Park

Let us know why:

My family and I live next to the Grove Street Park and have done for the past 15 years. We've had absolutely no contact from the developers regarding the proposed new road right next to our home. Prior to obtaining resource consent the developers were presumptuous enough to go ahead and sell real estate on their proposed sub division and now want a second access road. I don't think it's a case of needing a second access road, it's just a want. The developers propose to build a new and bigger playground for the sub division to replace the Grove Street Park that they intend on tearing down, why can't they upgrade the existing one? I agree that the park does require an upgrade but that doesn't stop children from still playing on it now. Regardless of what others have said we live next door to the park and it's a very well utilised playground. During our 15 years living in this quiet little cul-de-sac we have never had any concern with traffic. Drivers have always been mindful that there is a children's playground situated there. If the developers are granted approval to proceed with building their second access road through our Grove Street Park it will create a lot of unnecessary traffic coming down from Catherine Street. I have concerns that people will use this as a race track through to Grahams Road not to mention the noise impact this will have on the two houses that currently have a nice quiet park next door. This new road is going to be right next to my home! Therefore I strongly oppose to Grove Street Park being removed just to be replaced by an unnecessary road.
