

Do you wish to speak in support of your submission?:

No

Do you support the disposal of Grove Street Park? :

No, I oppose the disposal of Grove Street Park

Let us know why:

I am opposed to the sale of Grove Street Park for access to the new subdivision as it will create a dangerous cross-intersection at Grove Street and Catherine Street, and put a large volume of traffic up Catherine Street, a quiet residential street. If they require access at the Grove Street end, section 87 on their site plan would give them access to the development between 177-179 Grove Street and 181-183 Grove Street on the other side. I would hope that if Council does give permission for this access it does so with the condition that the main access off Grahams Road be completed first. With the proposed new bridge and new traffic lights in Tinwald, it would seem logical to do that road first.

Do you have any further comments?:

Playground On their plan, only one playground is shown which is at the end of Stage 1, which means that some children living in the subdivision will have to travel the length of the subdivision to get to the playground. It would be more practicable to have the playground in the middle.

I understand that all submissions are public documents and will be made available on Council's website with the names of submitters included:

Yes
