Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	No
Why?:	Because the red bin is enough for our general rubbish to fill in a week. I dont mind you doing it but i wont spend another dime for this expensive rates yearly we are paying.
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	Yes
Why?:	The cost is what i dont agree. You should reduce the rates instead. With everything so high in price plus the expensive rates how can we survive?
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	
Why?:	The cost!
Do you have any other comments?:
