**Q1**

Do you agree or disagree with changes to restrictions to heavy vehicle movements, one-way roads and turning restrictions? (See maps and register on webpage for details)

If you disagree with any or all of the changes, what are your reasons?:

I feel that the truck drivers and couriers have too far to transport their goods safely and in a timely manner as they are set. In Tancred Street the loading zone is close to Cass street however most of the delivery addresses for food items and businesses needing weighty items are located on the East Street end. A loading bay needed to be placed there closer to the cafes and restaurants. This will add time to deliveries which has a dominoes effect on the pricing of goods we receive. If it takes longer per delivery and less deliveries made each day because of location drop off delays then costs will rise further.

**Q2**

Do you agree or disagree with changes to align the Bylaw with current practices and changes in the transportation environment?

If you disagree with some or all of the changes, what are your reasons?:

Everything changes and this will need changes as well, just think carefully about what changes you make. The last idiotic change was when the enhancements were done down Tancred Street and you put a pedestrian crossing on an exit driveway of at least 5 businesses. Noone considered loading bays would be as important or that the one way traffic system was not really a great idea for such a small zone of town.

**Q3**

Do you have any other changes to the Bylaw that you would like to suggest?

**Respondent skipped this question**

---

**Q4**

Do you have any other comments?

Just use common sense without wasting our money.
