**Q1**

Our Vision is: A district where biodiversity is protected and enhanced from the mountains to the sea (ki uta ki tai) by a community that values and cares for it. Think about what our district, thriving with biodiversity, could look like in 20 years' time. What do you see?

I would love to see the return of native birds to urban areas, and more native trees and educational resources in parks.

---

**Q2**

Do the goals and objectives of the strategy capture what you see as the key issues facing biodiversity in the district?

Respondent skipped this question

---

**Q3**

What do you see as the top five priorities from the objectives mentioned in the strategy? Tick up to five objectives:

Identify and protect taoka (taonga) species and their habitat

,

Increase indigenous vegetation cover,

Interconnect biodiversity sites and threatened species habitats

,

Support projects that aim to restore and interconnect indigenous biodiversity sites

,

Encourage the public to participate in conservation and celebration of biodiversity

---

**Q4**

Respondent skipped this question

We have identified 55 actions to reach the goals in the strategy. You can read about them in the Action Plan on pages 28 - 35 of the draft strategy. Is there any specific action or anything else Council should be doing to support biodiversity in the district? Note – Goals and objectives related to water quality for rivers, lakes and wetlands are regulated via the Canterbury Land and Water Regional Plan and therefore not part of this strategy.
