Introduction, objectives and methodology

Introduction

The Ashburton District Council has an ongoing need to measure how satisfied residents are with resources, facilities and services provided by Council, and to prioritise improvement opportunities that will be valued by the community.

Research objectives

- To provide a robust measure of satisfaction with Council's performance in relation to service delivery
- To establish perceptions of various services, infrastructure and facilities provided by Council
- To assess changes in satisfaction over time and measure progress towards the long-term objectives

Methodology

- A statistically robust survey conducted via a quarterly mixed method approach to data collection consisting of a postal invitation to an online survey, with a paper survey sent out as back up.
- A total of 4,000 invitations were posted. The aim was to complete n=800 (n=200 per quarter). The sample achieved for 2020/21 was n=847 residents across the Ashburton District area.
- Post data collection the sample has been weighted so it is aligned with known population distributions for the Ashburton District Council area, as per the Census 2018 results, based on age, gender and location.
- At an aggregate level the sample has an expected 95% confidence interval (margin of error) of +/- 3.31%.
- Data collection took place in four waves: between 14 September and 14 October 2020, 7 December and 13 January 2021, 6 March and 5 April 2021, and 5 June and 30 June 2021.

Notes

Due to rounding, percentages may add to just over or under +/- 1%.

Executive summary

- Residents' satisfaction with Ashburton District Council's *Overall performance* has improved to 74% in 2021 compared to 69% in 2020. Perceptions of the *Performance of the Mayor and Councillors* have significantly improved with nearly nine in ten residents (89%) satisfied. Satisfaction with *Council staff* has also increased from 87% a year ago to 92% this year.
- Concerning local infrastructure, satisfaction with the standard and safety of *Sealed* and *Unsealed* roads has increased in 2021. The quality of *Drinking water supply* received a slightly less favourable rating compared with 2020. Residents have evaluated the *Overall rubbish and recycling services* less positively with eight in ten residents (80%) satisfied. Satisfaction with the *Kerbside collection service* has also declined (84% in 2021 vs. 91% in 2020).
- Overall perceptions of the different public services provided by Council have improved in the past year. Satisfaction with Opportunities for grants and funding, Community events, Social services and Economic development remains at a very high level. Residents have perceived Tourism promotion in the district more favourably as reflected by the increase in satisfaction with this service attribute (from 68% in 2020 to 73% in 2021).
- Council's provision and maintenance of *Recreation and leisure* activities and facilities has been a strong area of performance in 2021. Overall, residents are very highly satisfied with the *Public library* service (98%), *Cemeteries* (97%), and *Ashburton Domain* (97%).
- Satisfaction with Council's *Regulatory services* have generally improved this year. Residents are most satisfied with *Property information services* (96%) and *Emergency management/Civil defence* (96%). However, user satisfaction with *Environment monitoring/Public health* has declined from 79% in 2020 to 67% in 2021.
- Almost all residents (94%) perceive that the Ashburton District is about the same or better as a place to live than it was three years ago. Satisfaction with the State of the district's environment and biodiversity and Council's Activity to protect the environment is high (87% and 88%, respectively).
