

Do you wish to speak in support of your submission?: No

Do you support the disposal of Grove Street Park? :

I think that the developers have put the cart before the horse. Before they put out any real estate plans to the public they should have got this proposal signed off with our, the people of Ashburton's Council. How arrogant to take a public playground to make one of their access roads to their own private sub division and then sweetner that they will have a much bigger playground. Other developers have to stick to rule the book, why do these people think they are any different or are thinking that their pockets will be full when they sell the sections etc and they can buy their way out. I am also concerned about the traffic situation, going from tee intersection to a four way intersection, an accident waiting to happen. What about the children from that end of Grove , Catherine streets and Grove Place where do they play, have to go into the sub division. If we allow this group to put it into their plans of taking a public park for access, and then ask permission, does this allow a developers else where near a public space do a similar thing in the future, organise and then try to get permission. They must be declined, so no one tries to by-pass our by laws.

Let us know why:

Do you have any further comments?:

I understand that all submissions are public documents and will be made available on Council's website with the names of submitters included:

Yes
