Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	Yes
Why?:	Yes but believe we need to include GREENWASTE in this collection - to have just a food caddie is a waste we need to be taking out Green Waste as well so a 120L or 240L option for both FoodWaste and GreenWaste would be the best option. Currently a service provider EnviroWaste is already doing this service to Mid Canterbury residents. They also have the correct processing facility in Timaru.
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	Yes
Why?:	Getting Food Waste and Green Waste out of Landfill
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	Yes
Why?:	Gettting Foodwaste and GreenWaste out of Land fill - Leading the way as a community
