Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	Yes
Why?:	This will be a key area in reducing organic waste to landfill. Should also reduce cost of waste going to landfill alongside the environmental benefits.
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	Yes
Why?:	
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	Yes
Why?:	
Do you have any other comments?:	It would be worthwhile seeing the feasibility of kerbside garden waste scheme alongside food waste collection, possibly on a user pays basis. Increasing access to recycling facilities for rural communities would be of benefit, far too much "waste" is simply buried or burned.
