Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	Yes
Why?:	We have little food waste in our rubbish as we compost vegetable matter, but there is some food waste that we do put in the red bin and it would be good if none of it went to land fill.
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	Yes
Why?:	minmising waste is going to be better for the environment.
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	Yes
Why?:	I agree with the aim of reducing all waste and it sounds like a sound plan. I want to support it.
Do you have any other comments?:
