Submitter name	**Anonymous 1**
Organisation (if submitting on behalf)	

Do you wish to speak in support of your submission at the hearing?	No

I understand that all submissions are public documents and will be made available on Council's website with the names of submitters included	Yes

ASHBUROTN DISTRICT PARKING STRATEGY

Do you agree with the draft objectives for the Ashburton District Parking Strategy?

Which ones do you support and why?	Support economic objective: enabling car parking close to the CBD to enhance ease of access will assist with the economic development in town; barriers (eg lack of parks) mean people just won't go to the CBD.
Which ones don't you support and why?	Do not support the urban design objective. Question the environmental objective, particularly the provision of facilities for ride sharing. Ashburton does not have a population large enough to support ride sharing
Do you support the draft action plan?	
Which ones do you support and why?	
Which ones don't you support and why?	Do not support actions proposed for objective A: they sound like they will make someone very rich, with ratepayers footing the bill
Is there anything else we need to think about for parking in the district?	Don't fix something that isn't broken. Provide more all day parking No need to build more parking for council employees in their new building. Why wasn't parking factored in when the building was being designed?
If you own, or are considering purchasing an electric vehicle in the future, do you think more charging stations should be provided in more public locations than currently?	No
If you own, or are considering purchasing an E-bike in the future, do you think parking facilities should be provided in public locations?	No - How does an e-bike promote good health if the bikes motor is doing all the work?

Do you support the addition of drivers over 80 years to the Mobility Parking Policy?   Yes

Any other comments on the Draft Ashburton District Parking Strategy?
