Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	Yes
Why?:	We would love to have a green waste collection option. We were surprised that there was no green bin here, having seen that both Christchurch and Timaru have them. When we lived in Christchurch a few years ago we found that service very helpful. It is so much better knowing that waste can be turned into compost instead of continuing to pollute our land by being included with rubbish going into landfill. I do note that Christchurch currently have issues with odours from their composting site.
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	
Why?:	
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:
