Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	Yes
Why?:	I would only be a yes vote if this is talking about a green bin that grass clippings etc can go in it. We spend a lot taking grass and leaves (from council trees) to the dump as we have to pay the minimum each time as we can only load wool sacks into our small car. Our food scraps go to chickens and waste disposal so I wouldn't pay \$50 a year if it was just for food scraps.
