<b>Draft Waste Management &amp; Minimisation Plan</b>	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	Yes
Why?:	I previously lived in the Timaru district and the weekly collection of a green bin that took all compostable materials was a great thing it reduced the amount of material going in the red bin significantly.
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	Yes
Why?:	We need to be smarter about how waste can be diverted from landfill and maximise recycling and reuse ie. Composting green waste
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	
Why?:	
Do you have any other comments?:
