Do you wish to speak in support of your submission at the hearing?:	No
If yes, do you wish to support your submission in person or virtually?:	
Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	No
Why?:	Although I agree this is a good idea, I would prefer it to be on an opt in basis with a restriction on compostable waste not going in the red bins. So user pays. We have been encouraged to compost at home (and we have food waste going to chickens) and it would be an added cost for us that we would not use.
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	Yes
Why?:	I agree with the key issues and understand the need to reduce waste.
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	Yes
Why?:	I do agree but think it should be a user pays system.
Do you have any other comments?:
