Last Name:	Griffiths
Do you wish to speak in support of your submission at the hearing?:	No
If yes, do you wish to support your submission in person or virtually?:	Virtually
Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	No
Why?:	I believe this should be an opt in process. User pays. Some people already have green waste composting systems and may not need it. Others may need it. How much soft plastics do we have in our bins vs food waste could also be something to look at?
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	No
Why?:	Some people already have their own home composting systems.
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	No
Why?:	I believe people should have choice on if they need the service or not. A user pay system.
Do you have any other comments?:	Would like to investigate into how much soft plastics are in red bins and look into possible avenues for responsibly recycling these.
