Comments:

In 2021/22, the total budget for Ashburton Airport was \$152,023, of which almost 61% (\$92,558) was funded from rates. Which level of rates funding would you support us working towards?

I support the current level of rates funding (60%)

I support a low level of rates funding. (10%-20%)

I support a moderate level of rates funding. (30%-50%)

The Airport should not be rates funded at all.

Referring to the map on page 6 of the consultation document, do you agree with:

- Providing more space for recreational hangars?
- The location proposed for the new recreational hangar precinct?
- Providing a dedicated commercial hangar precinct?
- The location proposed for the commercial hangar precinct?
- Providing a hangar homes precinct?
- The location of the hangar homes precinct?

Great development ideas - encourage more people to use our airport.

Referring to the hangar homes proposal on page 8 of the consultation document, what is your preferred density of hangar homes?

- No hangar homes
- Up to 14 hangar homes (medium density)
- Up to 10 hangar homes (low density)
- Up to 20 hangar homes (high density)

If proved popular over time, development to 20 may be possible - but stay @ 14 for a start.
