Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	Yes
Why?:	I'm Originally from Auckland and before I left they had implemented this there and it worked in houses that wanted to minimise their rubbish bins (red bins).. if you do go ahead with this think about a few things; The costs on the liners to the households as well as an opt in-/ opt out system, because let's be real not all households will utilise this but it's great for the environment and wouldn't take much to get started. Oh, and since social media is a huge thing you could do a couple of videos on Tiktok or Facebook to show how to use it/clean it and some funny things too to make it fit in with kids these days.. 😊 Anyways hope this isn't annoying have a great rest of your day. - Thanks 😊
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	Yes
Why?:	Oh let's be real I've said it all in my last questions 😊
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	No
Why?:	Oh there's a plan already? Shoot I should read it huh? 😊
Do you have any other comments?:	I'm gonna go read the plan and I may remember to get back to you on what I think about it 😊😊
