<b>Draft Waste Management &amp; Minimisation Plan</b>	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	No
Why?:	There is only two adults in our household and we have very little to no food waste. Between a waste disposable unit and a compost bin we hardly have any food waste.
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	
Why?:	Why should we pay an extra \$50 in our rates when we would not be using the kerbside food waste service, should it not be user pays. If they request a food waste bin then add the extra charge of \$50 to the rates
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:
