First Name:	Ron
Last Name:	Smith
Do you wish to speak in support of your submission at the hearing?:	No
If yes, do you wish to support your submission in person or virtually?:	
Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	
Why?:	Maybe. You say you would be saving near 40% of costs by not putting this waste into landfill. Where do you intend to put it as it is still a weight to transfer and this will still cost? How do you intend to collect it?
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	No
Why?:	If there is going to be a refuse station in Methven where do you propose to put it. Hopefully not near the industrial area. If it was going to be built somewhere close to town but out of sight, like below the sewage ponds, then ok. I would not be supportive if there was going to be another transfer site by our sports fields or a main arterial road into town. Most of the industrys along this road try to keep their propertys in good order and to create a site in this area is bad judgement.
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	
Why?:	
Do you have any other comments?:
