<b>Draft Waste Management &amp; Minimisation Plan</b>	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	Yes
Why?:	As long as it includes garden waste and food waste for composting this would greatly benefit Ashburton. I supported this option at the first introduction of the new bin/recycling system, but it was not included.
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	Yes
Why?:	Green waste is a large part of most households. Not everyone has the knowledge or capacity to do composting at home.
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	No
