

Your details	
First Name:	Bronwyn
Last Name:	Gilchrist
Do you wish to speak in support of your submission at the hearing?:	No
If yes, do you wish to support your submission in person or virtually?:	
Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	Yes
Why?:	Keeps large amounts of green waste out of landfill. Other districts around us have green waste collection but not Ashburton! Rather stupid considering we are all using the same landfill in North Canterbury
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	Yes
Why?:	Manage our waste more effectively,
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	Yes
Why?:	
Do you have any other comments?:	I enquired at the council over a year ago to upsize my red bin and got told, "I would have to get another bin on top of my current small red bin so having 2 red bins"! Surely you can collect one and opt to have a different size without having to hang on to the original bin? So have now gone and got a private green bin Surely we can opt in and change our bins sizes around and tag them onto our rates? I know you can do this in Christchurch! I personally don't know how a family of 5 would survive with a smaller red bin
