Do you have any other comments or feedback about this draft plan?

There is no plan here to have more land.Land banking is important for growth.Not stopping progress here but there is no plan for infurstructure ie power ,water ,waste water and is residents will have these available to them as well.We bought our place for the view of the airport even taking out trees in the front of our place to improve the view.The airport is going forwards all the time and asset to the community.
