Do you wish to speak in support of your submission at the hearing?:	No
If yes, do you wish to support your submission in person or virtually?:	
Draft Waste Management & Minimisation Plan	
We are proposing to introduce household kerbside food waste collection. Other districts have done so at a cost of about \$50 per household per year. Would you support a kerbside food waste collection service being implemented?:	Yes
Why?:	
Do you agree with the key issues in the draft Plan? If so, which issues do you agree or disagree with?:	
Why?:	
Do you agree with the proposed actions in the draft Plan? If so, which actions do you agree or disagree with?:	No
Why?:	You have taken an urban approach to waste management and ignored the fact that the largest ratepayer get no waste minimisation services. On top of large rates we as a farm pay for our rubbish to be collected and have to transport all our recycling
Do you have any other comments?:	It would be great if larger farms could get a subsidised recycling skip service. Living in a town should not be the only requirement for services from the ADC
