How you would like to present your submission at the hearing?

Q4

Do you support the goals in the Ashburton Airport Development Plan (as follows)?* Ashburton airport is enabled to become more financially independent* More people are attracted to Ashburton Airport for activities that support the vibrancy and viability of the facility* Ashburton Airport is sustainably managed to support increased use of the facility over the next 30 years* Ashburton Airport remains an appealing, thriving hub for the local community and visiting aviation enthusiasts for the next thirty years

Yes,

Comments:

The Ashburton airport is a very valuable asset with huge potential for further development, potentially bringing a much improved income stream for the District. Watching success of similar developments in other areas it makes sense to proceed with the proposal.

Q5

In 2021/22, the total budget for Ashburton Airport was \$152,023, of which 60.9% (\$92,558) was funded from rates. Which level of rates funding would you support us working towards?

I support a low level of rates funding (10%-20%),

Other (please specify):

The ratepayer contribution will be variable year on year depending on how quickly development takes place. There should be no reason why the Airport can't become fully self funding within a few years.
