**Q4**

Do you agree with the principle to lower speed limits outside schools within the district?

**No,**

Comments:

I live by a school. It is better education and policing that is needed. A lower speed will not be adhered to by the ones speeding thru now.

---

**Q5**

Do you agree with the principle to introduce speed management for urban fringe zones in the district to respond to future growth?

**No,**

Other (please specify):

The speedsters will still speed. It only hinders the ones that already "obey". Policing the parents doing the pick up/drop off and the college students with their cars (often on a restricted licence with a car load of their mates) are the ones that need targeting.

## Draft Interim Speed Management Plan 2022

### Q6

Do you agree with the principle to enable speed management for developed urban areas with a high number of active users?

**No,**

Other (please specify):

Speedsters will always speed if there is no policing. They don't care

### Q7

Do you have any other comments or feedback about this draft plan?

We need to go back to using common sense. Introducing more rules for the ones that break them and then they don't follow, is pure waste of money and fails to hit the frequent abusers. Get back to basics with consequences. Stop this PC world.
